

Superior Technology & Best Quality at Cost Effective Price

**Mini Bitumen Sprayer
Super Model**

FEATURES

- An attachment on Truck, tractor & Jeep.
- Chassis and linkage holder are entirely made of steel.
- Both Heating System, Wood Fire Bhatthi & Burner System
- 2.5 Ton Capacity.
- Heavy Duty Chassis & Structure.
- Safe & easy Operation.
- Hand Spray System.

TECHNICAL SPECIFICATION

| | | |
|----------------------|---|--------------------------------|
| Bitumen Tank | Model | KDI 2500 |
| | Capacity | 2500 Liters |
| | Shape | U Shape |
| | Insulation | 40 mm thick with glass wool |
| | Temp. Gauze | 0 - 300°C |
| | Main hole | 450 mm in diameter |
| | Mounting | Self chassis mounted on wheels |
| Manual hand spraying | Pipe Length | 3 meters |
| | Type of Pipe | S.S. Corrugated hose pipe |
| | Bitumen Spraying Pressure | 0 - 3 kg. / cm ² |
| Bitumen Pump | 1,5" x 1.5" Size positive displacement gear pump with output of 200-300 liters / min. | |
| Air Compressor | Standard make Air Compressor | |
| Burner | Fuel consumption 7 - 8 liters / hour | |
| Engine Fuel Tank | Capacity 5 liters | |
| Burner Fuel Tank | Capacity 20 liters | |
| Engine | Standard make air cooled diesel engine | |
